## AB 1433 (Eng and Beall), Chapter 443, Statutes of 2010

**Affects:** Continuing Care Retirement Communities

**Subject:** Continuing Care Contracts: Residential Temporary Relocation

**Summary:** Assembly Bill (AB) 1433 added the definition of a “residential temporary relocation” as a relocation of one or more residents due to a change of use or major repairs or renovations that lasts at least nine months but that does not exceed 18 months without the written agreement of the resident. Providers will now be required to include in resident contracts the procedures to be followed to ensure that residential temporary relocations provide comparable levels of care, service, and living accommodations. Providers will also be required to have specific procedures for returning the relocated resident when the residential living units will be ready for occupancy.

**Implementation:** A letter to all continuing care providers and stakeholders was issued on December 1, 2010 instructing providers of the requirement to follow the procedures as outlined in Health & Safety Code (H&S) sections 1793.90 and 1793.91 in the event of a residential temporary relocation, as well as amend their contracts to include those procedures and add the required language in H&S sections 1788(a)(11) and 1788(a)(33)(C). Amended contracts are required to be submitted to, and approved by, the Department prior to use. Providers are advised that the contract amendment provisions do not act retroactively, but the process for residential temporary relocations described in the statutes may be required by the Department as a condition for any approval for any project involving “residential temporary relocation.”

## **AB 2619 (Block), Chapter 64, Statutes of 2010**

**Subject:** Elder/Dependent Adult Abuse: restitution, earnings withholding orders

## **AB 2683 (Hernandez), Chapter 604, Statutes of 2010**

**Affects:** Community Care Facilities (CCFs), Residential Care Facilities for Persons with Chronic Life-Threatening Illness (RCF-CIs), and Residential Care Facilities for the Elderly (RCFEs).

**Subject:** Optometry

**Summary:** This legislation authorizes the practice of optometry at a health facility or residential care facility, as defined, provided the optometrist meets specified requirements, including, but not limited to, those related to maintaining a nonresidential primary business office, patient access to, and disclosure of, patient records, and specified recordkeeping requirements. The legislation exempts from the address notification requirements to the board an optometrist who practices in a health facility or residential care facility and who meets the requirements. This legislation authorizes an assistant to fill prescription lenses and perform those additional duties in any setting where optometry or ophthalmology is practiced, under the direct responsibility and supervision of a physician and surgeon, optometrist, or ophthalmologist, respectively. The legislation defines "setting" for purposes of these provisions to include, without limitation, any facility licensed by the State Department of Public Health or the State Department of Social Services.
